

## INFORMED CONSENT FOR BALDNESS.DOCTOR (Terms of Use)

To better serve the needs of people needing health care services, such services are now available by interactive video and audio communications and/or by the electronic transmission of information. This type of servicing may assist in the evaluation, diagnosis, management and treatment of a number of health care problems. This process is referred to as “telemedicine” or “telehealth.” This means that you may be evaluated and treated by a Baldness.doctor consulting health care provider (“consulting health care provider”) or specialist from a distant location using interactive audio and video technology. Since this may be different than the type of consultation with which you are familiar, **it is important that you understand and agree to the following statements.**

1. Baldness.doctor services are NOT FOR use for medical emergencies or urgent situations. **IF YOU ARE EXPERIENCING ANY KIND OF MEDICAL EMERGENCY, CALL 911 IMMEDIATELY.**
2. The consulting health care provider or specialist will be at a different location from you.
3. The telehealth services you receive from the consulting health care provider are not intended to replace your primary care physician relationship or be your permanent medical provider.
4. You acknowledge that the health care provider has explained to you how the video conferencing technology will be used to affect such a consultation. You understand that this consultation will not be the same as a direct patient/health care provider visit due to the fact that you will not be in the same room as the health care provider.
5. You should seek emergency help or follow-up care when recommended by the consulting health care provider or when otherwise needed, and you should continue to consult with your primary care physician and other healthcare professionals as recommended.
6. You may be asked to provide proof of identity with a driver’s license or other legal document prior to the telehealth consultation. You understand that the health care provider may refuse to provide services to you if you cannot provide such proof of identity.
7. Another physician or other health care provider (“presenting practitioner”) may be present with you in the room to assist in the consultation. If present, the presenting practitioner may transmit or share electronically details of your medical history, examinations, xrays, tests, photographs or other images with the consulting health care provider who is at a different location.
8. You will be informed if any additional personnel are to be present other than you, individuals accompanying you, and, via video, the consulting health care provider. You will have the option of giving your verbal permission prior to the entry of additional personnel.
